FAQ (Frequently Asked Questions)

1. How is the breathability of your baby diaper?

We use super soft nonwoven fabric for the surface of baby diaper which has super absorbability and keeps the surface dry and comfortable.

2. How many sizes of baby diapers do you have?

We are currently manufacturing 4 different sizes: size S, M, L and XL. We can manufacture custom size diapers to meet customer requirements.

3. What is your source for SAP (Superabsorbent Polymer)?

We are using SAP made in Japan. We can also use SAP made in Taiwan as per customers requirements.

4. Can you provide OEM service?

Yes, we can provide OEM service as per customer request.

5. Can your company manufacture diapers under private label?

Yes, we can manufacture diaper with private logo and packaging as per customer requirements. We have an in-house graphic design service available to the customer free of charge.
